CHURCHLANDS
SENIOR HIGH SCHOOL

Congratulations

Abhaey Ayachit Year 10 for being selected to participate in the AMOC Senior Contest. It's a highly selective competition by the Australian Mathematical Olympiad Committee with only 120 students Australia-wide invited to enter.

Abhaey Ayachit

Cooper Mason Year 12 for selection into the State Basketball Team. State representation is an honour and often represents a significant stepping stone in the ultimate achievement of senior and national selection.

Cooper Mason

Yun Han Wong Year 11 for selection in the Australian Youth Volleyball Championship (AYVC) WA State Team. It is hoped the team will travel to Victoria to compete in September. Good luck!

Yun Han Wong

What's happening?

Choosing your senior secondary subjects doesn't have to be scary. Here are 6 things to keep in mind

<https://theconversation.com/choosing-your-senior-school-subjects-doesnt-have-to-be-scary-here-are-6-things-to-keep-in-mind-160257>

Australian Maths Competition

Happening between 4 -6 August (depending on category)

Payments of \$6.50 for participants are due on QKR and will close on Thursday 29 July

06	Senior Band Festival
10	Year 12 ATAR Music Recital Night
10	Year 7 Athletics Carnival
10	AEP Talented Young Writers Workshop Yrs 9 & 10

ATTENTION STUDENTS IN YEARS 7-9

The school is assisting Transperth to gather data on student safety and awareness around buses.

Transperth have recently launched a campaign to educate students of the dangers around buses and increase their awareness of the need to pay attention. To ensure the campaign is impactful, and subsequently assess its performance, Transperth has commissioned Painted Dog Research, an independent market research agency, to conduct research with year 7-9 students. Students in this age are the main victims when it comes to accidents around buses. The objective of this study is to gather feedback from students via an online survey, which will be circulated by the School. The results will help measure the campaign's effectiveness in shifting students' behaviour.

If your parent does not wish for you to participate that is okay.

Please complete the survey at the link below by Friday 30 July.

FAMILY AND COMMUNITY ENGAGEMENT

E-cigarette **fact sheet** for **parents** and **teachers**

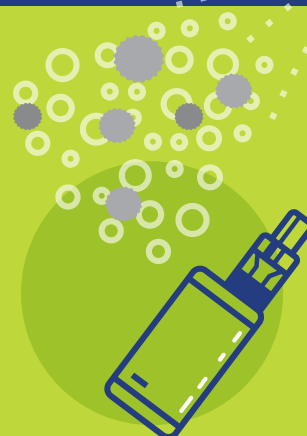

E-cigarettes pose serious health risks to teens.

In 2019, 18.6% of Australian teens and young adults aged 15-24, who are current tobacco smokers, used e-cigarettes, **an increase from 6.6% in 2016**. A Royal Children's Hospital 'Child Health Poll' found 57% of parents have never discussed e-cigarettes with their teen. Social media is being used extensively by tobacco and e-cigarette companies to **market e-cigarettes to teens and young adults**.

About e-cigarettes

E-cigarettes, also known as '**vapes**', are **battery operated devices** that work by heating a liquid (or 'juice') until it becomes an aerosol that users inhale.

Some people mistakenly believe the '**cloud**' from vaping is a vapour, like steam. It is really **an aerosol**, a fine spray of **chemicals** that enter the body via the lungs and small particles that can **lodge in the lungs**. Using an e-cigarette is commonly called '**vaping**'.

FAMILY AND COMMUNITY ENGAGEMENT

The Fathering Project

“Engaging dads and supporting schools to build stronger family partnerships, for the children.”

We have made a school commitment to The Fathering Project and we will be working closely with our P&C in engaging our dads.

If you are interested in playing a lead role on The Fathering Project Team, we encourage you to attend the next P&C meeting on

Monday 2 August, 7.30pm in the Choral Studio.

Please watch for information regarding the Launch event in Term 4.

<https://thefatheringproject.org/fathering-channel/>

WHY WE'RE FATHERS FIRST

Fathers have a significant impact on academic achievement as well as the social and emotional wellbeing of their children.

Research shows that schools that specifically target fathers will see better outcomes for kids.

Why directly target fathers?

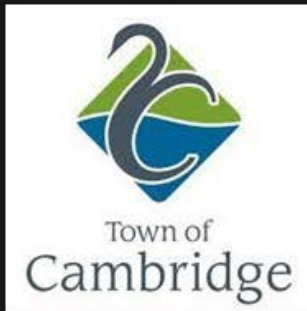

- Children do better in school when their fathers are involved in their school, regardless of whether their fathers live with them or live apart.
- Children whose fathers participate in school activities, meetings and events also enjoy school more, are less likely to have behaviour issues and are more likely to participate in extracurricular activities.
- Fathers are more likely to engage in school if they are directly invited or targeted.

OUTCOMES:

- Increased student connectedness with school
- Increased physical activity and better health outcomes
- Increased self-esteem and resilience
- Reduced bullying behaviours
- Reduced delinquent behaviours
- Reduced engagement in unhealthy and risky behaviours
- Reduced alcohol, tobacco and drug use
- Increased social responsibility and social maturity
- Reduced suicide and self-harm
- Reduced substance abuse
