# APPLICATION FOR ENROLMENT

## General Information

A parent or legal guardian applying to enrol a child in a government school should complete this form. Only permanent residents of Australia and those children holding an approved visa sub-class number are eligible to be enrolled in a government school. Only students under the age of eighteen years can be enrolled and must be accompanied by a parent(s) or legal guardian.

## Resident in Local Intake Area

The school can only guarantee places for a student whose family is currently residing within the boundaries of the Churchlands Senior High School local intake area as have been determined by the Department of Education of Western Australia. A map of this area is available from the school should you need to know these boundaries or may be viewed on the school web site.

The map shows local intake and optional areas. Please note that where the area is marked optional, parents exercise the choice of school to send their child to.

## Application for Enrolment

This is an application for enrolment only – submitting this form to the school does not mean that the enrolment has been accepted by the school. The Principal will firstly need to determine if there is classroom accommodation and whether an appropriate educational program can be provided for your child at the school. Once determined, the Principal will need to fully consider the information provided on the application form.

For parents applying to enrol their children in schools for next year, you will be advised of the outcome of your application by early fourth term. If your child has gained enrolment from outside the local intake area into a specialist program, their siblings will not be guaranteed enrolment in the school.

It is a requirement of the Department of Education that any information on suspensions and exclusions must be provided to the school at the time of applying to enrol a child. This information will help the school to provide your child with the appropriate support, if required.

Children currently under suspension from a government school cannot be enrolled at another government school until the suspension period is over. Children who have previously been suspended or excluded from a government school may be required to enter into a behaviour agreement with the school if enrolment is to be accepted.

## Please be aware of the following sections of THE SCHOOL EDUCATION ACT 1999.

**Division 2, 20 (1)** The Principal of a school may cancel the enrolment of an enrolled student at the school if the Principal is satisfied that:

- a) The enrolment was obtained by the giving of false or misleading information; or
- b) Section 17 has not been complied with.

Section 17 requires notification be given to the Principal in a manner determined by the school of the following change of particulars:

- (i) Usual place of residence
- (ii) Court orders pertaining to the child
- (iii) Details of any conditions of the child that may call for special steps to be taken for the benefit or protection of the enrollee or other persons in the school (16.1.g)
- (iv) Legal guardian of the child.

## PLEASE RETURN TO:
