

The following instructions direct the user to install the latest (2.2.2) Windows version of the NAPLAN browser via SEQTA.

The Windows version & Apple version of the browser can also be found at the following location;

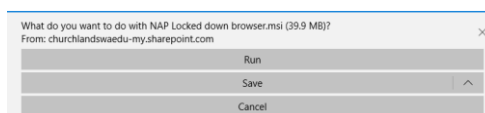

<https://www.assessform.edu.au/layouts/Technology/LockedDownBrowser.aspx>

Instructions;

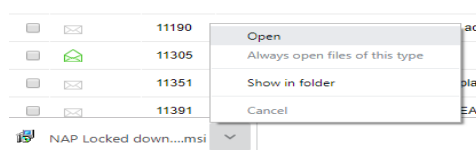

1. Log into SEQTA - <https://student.churchlands.wa.edu.au/>
2. On the SEQTA Home screen click on the **Onedrive-Student** folder
3. Click on the **ICT** Folder & then click on the **NAPLAN** folder
4. Click on the **WINDOWS NAP Locked down Browser.msi** file (Apple users click on the **APPLE NAP** file & follow the prompts)

5. Click **Run**

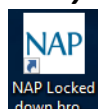

(GOOGLE CHROME users may find that the file sits at the bottom of the screen. Click on the arrow to the right & click Open)

6. Tick the Terms & Conditions box
7. Click **Install** (Click **Repair** twice if this option presents itself instead)
8. Click **Yes** to the user account control message
9. Click **Finish**

You should now have a NAPLAN icon on your desktop screen (as shown below)

(To check you have the most up to date version (2.2.2) Type the words **apps & features** into the windows search box & click on it, find **Nap Locked Down Browser** in the list. Click on it once and it will give you the version number and date in grey)
