

In 2015 a new Federal Government initiative was introduced to create a database where all training is consolidated in one place, including some training that will take place at Churchlands Senior High School in later years. The Unique Student Identifier (USI Number) may be required when applying for a job, carrying out training programs, such as First Aid and Try-A-Trade and for Senior Secondary Programs.

As part of the enrolment, you are required to create a USI number for your child. The instructions on how to do so are found below.

A USI gives your child access to their online USI account, which is a 10 Alpha numeric digit, made up of ten numbers and letters. It will look something like this: 3AW88YH9U5.

In time, your USI account will contain all your child’s nationally recognised training records. One of the main benefits of the USI is that your child will have easy access to their training records and results throughout their life.
